## State of Ohio – IT Policies

You do work with the State of Ohio. Go to [Policy Finder | Department of Administrative Services \(ohio.gov\)](#) to find the State of Ohio IT policies. In the NIST Supply Chain strategy, the supply chain vendor should meet the same NIST standards that the State of Ohio meets.

The screenshot shows the Ohio Department of Administrative Services Policy Finder interface. The navigation bar includes links for BUYING & SELLING, PROPERTY SERVICES, TECHNOLOGY & STRATEGY (selected), and EMPLOYEE RELATIONS. A search bar is present on the right. The main content area displays a table of policies with columns for Title, Division/Program, Topic, and Type. The 'Policies' sidebar is active.

	Title	Division/Program	Topic	Type
