

# OhCR Education Team

*'Building a More Cyber Secure Ohio'*

The Ohio Cyber Reserve (OhCR) Education Team will assist your school in starting or sustaining a Cyber Club at your district.

## Cyber Club Toolkit

**Welcome to the Ohio Cyber Club Toolkit**

The Ohio Cyber Club Toolkit (OC<sup>2</sup>) project is an activity of the Education and Workforce subcommittee of the Ohio Cyber Collaboration Committee (OC<sup>3</sup>), which is a partnership between the Chancellor's office and the Adjutant General's Office. The toolkit provides direction and resources for cyber club advisors on starting and running cyber clubs in their school or organization. These resources are housed on the OpenSpace platform hosted by INFOhio. Please use the links below to access the Ohio Cyber Club resources.

**How to use the toolkit**

The toolkit has several sections that will help your school or organization create and run cyber clubs, including content that can be used during club meetings or during the traditional school day.

» **How to Start a Cyber Club** – This section includes resources that will help a school or organization create and run a cyber club. One specific resource, [Starting a Cyber Club](#), contains several documents that will walk club advisors through the process of working with schools or organizations to create a club, understanding club advisor and mentor roles, marketing clubs and more.

» **Cyber Club Education Resources** – The Cyber Club Toolkit is a living resource that is created through the input of OC<sup>3</sup>, industry professionals, teachers and club members. Resources will be updated and continually added to the site.

## Your Cyber Club can:

- Present Security Awareness training when asked
- Assist with smart password creation education
- Share proper file sharing techniques within Google folders
- Reminders for clean desk discipline
- Can present technology subjects at school assemblies

[Cyber Club Toolkit | Ohio Department of Education](#)

Cyber Clubs and other initiatives can help your school district meet the NIST Cybersecurity Framework, PROTECT (PR) function Subcategory PR.AT-1 data security control.

**Awareness and Training (PR.AT):** The organization's personnel and partners are provided cybersecurity awareness education and are trained to perform their cybersecurity-related duties and responsibilities consistent with related policies, procedures, and agreements.
