OhCR Education Team

'Building a More Cyber Secure Ohio'

The Ohio Cyber Reserve (OhCR) Education Team will assist your school in organizing and coaching youth cyber competition events. Cyber competitions are an exciting way to interest students in cybersecurity and STEM subjects. There is also the possibility of scholarships and national recognition. The OhCR can assist with the CyberPatriot, National Cyber League, CyberStart America, Carnegie-Mellon picoCTF and many other cyber education programs

[CyberPatriot National Youth Cyber Education](#)
